

Purfix

XPRESS UNDERLAY

Self-Adhesive Acoustical Underlayment

Product Overview

Purfix Xpress Underlay is an acoustical underlayment with a pre-applied adhesive that bonds to the floor covering, for fast and easy “floating” installations of dry back modular resilient flooring, including LVT, PVC, and bio-based polyurethane floors.

Xpress Underlay is made with *ecuran*, a sustainable high-performance composite material. It is Cradle to Cradle Silver Certified, contains 90% renewable and natural raw materials, and is manufactured in an ecologically responsible facility.

Xpress Underlay allows for immediate flooring use after installation and is suitable for use with radiant heating.

Benefits

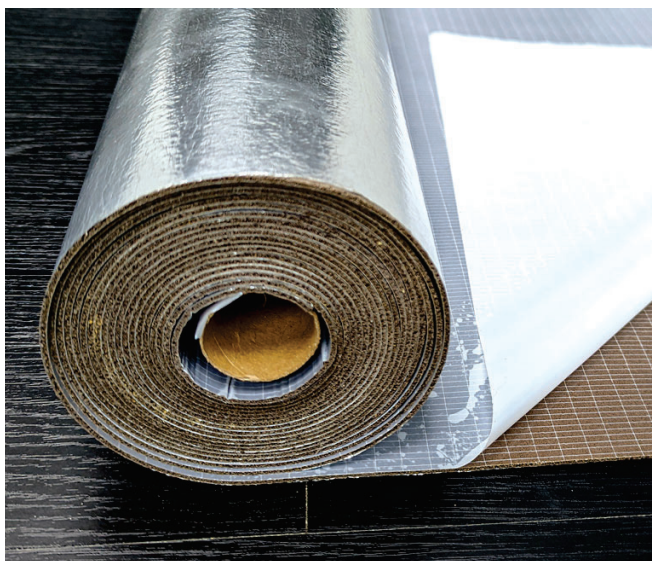

- Fast and easy “floating” installation
- Built-in moisture resistance allows for installation on subfloors with up to 95% RH
- Healthy living without odor or chemicals harmful to humans and the environment
- Walk on your floor immediately – No more waiting for glue to dry
- Reduces sound transmittance above and below the floor
- Enhances walking comfort underfoot

Technical Specifications

Product Thickness 2 mm

Roll Size 3.3 feet wide x 26.2 feet long (1 meter x 8 meters)
86 ft² (8m²)

Roll Weight 35.3 lbs (16 kg)
