

Purfix

UltraTech Adhesive

Resilient Flooring Adhesive

Product Overview

Purfix UltraTech Adhesive is a superior-performance adhesive that is specifically formulated for installation of Windmoeller bio-based polyurethane flooring and other approved flooring products. UltraTech performs well under rolling loads, resists indentation, and develops a strong, durable, moisture-resistant, and alkali-resistant bond. Its low volatile organic content makes it ideal for use in both residential and commercial applications. It may be used over properly prepared concrete or APA-grade plywood as well as over floors using radiant heat.

Packaging

Purfix UltraTech Adhesive is available in 4-gallon pails (48 pails per pallet).

Trowel Recommendations

1/16" x 1/16" x 1/16" Flat V-Notch

Coverage: 125 - 145 square feet per gallon

Shelf Life

Shelf life is one year from date of manufacturing in unopened, original packaging when stored at temperatures between 65°F (18°C) and 80°F (26°C).

Benefits

- Resistant to heavy rolling loads and shrinkage
- Low-VOC and low odor
- Moisture resistance up to 95% RH
- Easy to trowel
